

The infographic features a central dark blue circle with the main title. Surrounding it are ten light blue circles, each containing a service description and a small circular icon. The icons include: a tooth with a dental implant, a tooth with a checklist, a tooth with a toothbrush, a tooth with a fissure sealant, a tooth with a fluoride varnish, a tooth with a magnifying glass, a tooth with a mouthguard, a tooth with a whitening tray, a tooth with a crown, and a tooth with a cross. The background is a dark blue gradient with light blue geometric shapes.

## How can **YOUR** dental **therapist** support **YOUR** oral health?

Carry out a full clinical examination of teeth, gums and soft tissues and plan your care

Providing advice and treatment for people with dental implants

Homecare advice working with you for your optimum oral health

Screening for oral (and skin) cancer and stop smoking advice

Preventing tooth decay by fissure sealants, placement of fluoride and advice on good dietary choices

Identification, management and monitoring of periodontal (gum) disease

Provide you with sports or night mouthguards or whitening trays

Restore teeth with a variety of materials, for adults and children

Dental Therapists can work to the prescription of a dentist (NHS and privately) or carry out treatment directly without you needing to see a dentist (privately)
